OC-2075-84  
26 December 1984

MEMORANDUM FOR: Director of Communications

25X1 FROM:

  
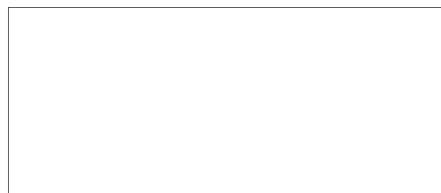

Chief, Management and Liaison Staff, OC

SUBJECT: Weekly Staff Notes, 17-21 December 1984

1. The FY-87 Program Call was received from the Comptroller.
2. The Comptroller took action to provide OC with \$2,610K for a new UHF satellite 500 kHz channel lease.
3. The first FY-85 DDA Quarterly Review was tentatively scheduled for 0930 to 1100 on 8 February 1985.
4. MLS/RAG sent a memo to all OC Divisions requesting a Rough Order of Magnitude (ROM) costing for only New Communications Services submitted by the Directorates that are linked to proposed FY-87 New Initiatives. For the first phase of reviewing the submissions, we are asking for ROM costing rather than details due to the time constraint warranted by the EXDIR's recent memo asking for New Initiatives be submitted to the Comptroller by the end of January.

- 25X1 
6. The ninth monthly crypto allocation meeting was conducted on 20 December. Seventy-eight KG-84s and 30 KY-71s were allocated.

7. Late last week we were advised that TRW was having production difficulties and for that reason we may only receive ten of the 23 KG-84 units we were scheduled to receive in January 1985. We asked NSA to look for alternatives, and late this week NSA called to say that the Army had agreed to let us have 30 of its units to be delivered in February 1985. Meanwhile, OC-FND and OC-CSD are checking other contacts in an attempt to locate additional equipment to support Project Surge.
